

C.A.R.E. specializes in enhancing the lives of residents in our housing communities through social service programs and education. Currently, C.A.R.E. serves over 9,000 residents at 47 affordable housing communities across California. Each apartment complex offers comprehensive services to all interested residents at our on-site community and recreational centers. Culturally sensitive services are provided to all of our residents, including the most needy low income populations: single parent families, large families living on welfare, senior citizens living on a fixed income, and mentally and physically challenged individuals. We are committed to assisting our residents in meeting their special needs through programs and services. The needs of our residents are formally assessed. The programs are then provided based on the input from the residents.
